ABOUT OUR PRODUCT

we make rechargeable batteries (9v currently) which has exceptional features and specs which make it different from others.

TYPE C

Batteries that are out there either have inconvenient mechanisms like sitting charging, or low battery backup, etc. This battery is the best of all worlds with long lasting battery life thanks to its 600 mah battery*

UPTO 600 MAH

You can configure upto 600 mah or 5.4 wh of battery

GREATEST BATTERY

RAPID CHARGING

Charging can be done within 10 mins (300 mah)

LONG BATTERY LIFE

with the help of its 600 mah battery, it can power a philips d2130 radio for upto 5.4 hours.

Pricing

With the hand generator it
can cost 666 rupees

The 300 mah battery can be
made under 250 rupees.

CALCULATIONS

Items	Pricing
1 Step up booster	70
2 Battery	100
3 Charging module	25
4 Switches, wires, etc	30
Total	225

HAND GENERATOR

It will cost extra 300 rupees, sums up to 525 with hand generator, and 600 mah will require more 100 rupees, making the price 625 with generator, or 325 for just the battery.
